

The Integration of Technology into the Elementary Classroom with Emphasis on the Effective use of Interactive White Boards: Part 1

Week 2

Introduction of the Screen Capture Toolbar

Exploration of the Gallery with emphasis on interactive objects

Assignment:

- Download the Flash notebooks files from the class wiki and explore.
- Find one of the objects that you could use in your class. (Each page in these files has one object on it.)
- Open a new Notebook file. (If you open Notebook from the shortcut on your desktop or from your Start menu, you can still leave the other file open for reference.)
- Search for the object you chose in the Gallery
- Drag the object onto a new page
- Edit it to meet your curriculum needs
- Clone the page and edit the object again if you want more choices for your students
- Save the Notebook file to your computer. (Make sure you know where it saves.)
- Upload the file to your page on the class wiki before our next class.
